

## Fibula Shaft

### Dimensions

#### Description

(L)            (W)            (W')            (D')

cm            mm            mm            mm

550636      Fibula Shaft

17.9-18.1    5.0-40.0    5.0-40.0    1.0-15.0

#### Processing Specifications

Shafts consist of diaphyseal bone.

#### Measurements

L            overall length

W            minimum width at the distal end measured anterior to posterior

W'            minimum width at the proximal end measured anterior to posterior

D'            minimum diameter of the medullary canal measured medial to lateral
