### **Measurements**

- W Maximum measure medial to lateral of the plateau including the bone
- DM Medial superior plateau measured anterior to posterior at the longest point
- DL Lateral superior plateau measured anterior to posterior at the longest point
- WM/ML Medial and lateral meniscus measured medial to lateral
- WL/ML Medial and lateral meniscus measured medial to lateral
- A/AP Medial and lateral meniscus measured anterior to posterior
- C/AP Medial and lateral meniscus measured anterior to posterior
- T Minimum thickness of the tibia not including soft tissue
- TM Minimum thickness of medial meniscus; do not release the attachment to the plateau for hemi
- TL Minimum thickness of the lateral meniscus-do not release the attachment to the plateau for hemi
