

DBM - Putty

Description

621005	DBM – Putty	0,5 cc
621010	DBM – Putty	1 cc
621020	DBM – Putty	2 cc
621025/BT1013	DBM – Putty	2,5 cc
621050	DBM – Putty	5 cc

Processing specifications

Putty is a demineralized bone matrix (DBM) product. The putty contains demineralized cortical bone powder with a carrier. Putty has a consistency similar to a gel or mastic and is ready for use. Putty was found to be osteoinductive in an animal model.
